How to Draw a Gorilla

by Brooke Robinson

1. Sketch 3 circles to create the head and back.

2. Add circles to create the arms, legs, hands, and feet.

3. Draw a dark line from the chin all the way to the edge of the back leg.

4. Add in the arms, creating small flares of fur at the joints and wrists.

5. Add in the legs, including the same flares of fur that the arms have.

6. Draw the gorilla’s hands and feet.

7. Add in the remaining features, including the facial features and the small fur marks at the knees and elbows.

8. Shade in the fur to add depth to the gorilla’s body.
