

The Fossey Fund's Alphabet

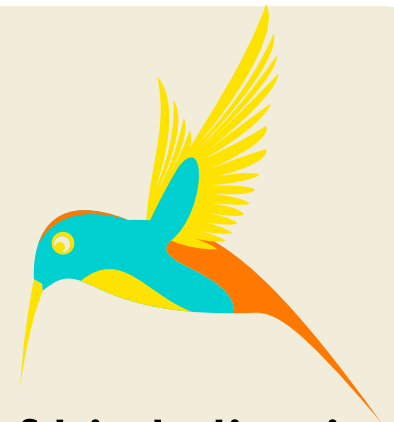

An ABC poem with fun facts about the Fossey Fund!

A is for avocado!

Did you know that the Fossey Fund helps the local community plant avocados so they don't have to go into the forest for food?

B is for bird!

Over 300 species of birds live in the Virunga Mountains with the gorillas.

C is for the Congo!

We work in the Democratic Republic of Congo helping people and saving Grauer's gorillas.

D is for Dian!

Dian Fossey is the founder of the Fossey Fund.

E is for the Ellen DeGeneres Campus!

The Ellen Campus is the Fossey Fund's permanent home in Rwanda; it is designed for education, scientific research, community involvement and tourism.

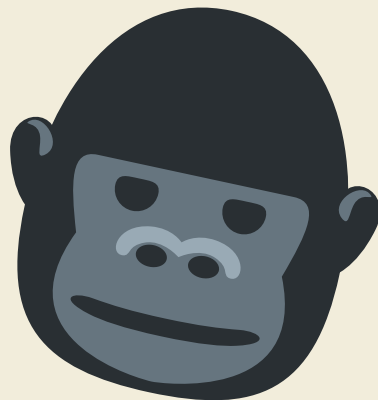

F is for fifty!

The Fossey Fund has over a 50-year legacy that studies and protects gorillas; this is the longest running field study on gorillas!

G is for gorilla!

The Fossey Fund studies mountain and Grauer's gorillas.

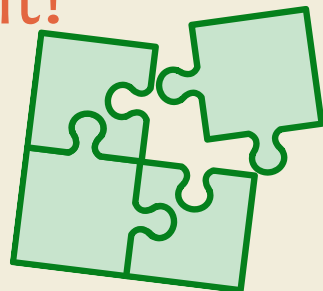

H is for helping people!

The Fossey Fund provides educational, food security and livelihood programs to help the surrounding communities in Rwanda and the Democratic Republic of Congo.

I is for involvement!

The Fossey Fund is invested in improving local communities quality of life

J is for Journal Newsletters!

We send out newsletters to keep our donors informed about the gorillas and work we do.

K is for Karisoke!

Karisoke is the research center Dian set up and the Fossey Fund still actively uses the center today!

L is for local communities!

The Fossey Fund and local communities work together to be able to participate in critical conservation efforts.

M

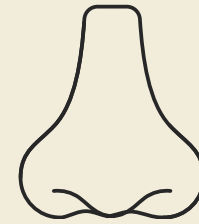

is for monkey!

Golden monkeys
are the only other
non-human
primate that lives
with mountain
gorillas.

N

is for noseprints!

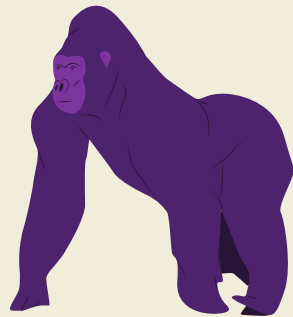

Did you know that gorillas can be
identified by their unique
noseprints?

O

is for only!

Mountain gorillas
are the only great
ape species that
have increasing
numbers.

P

is for people centered
conservation!

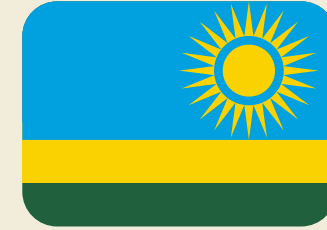

Our outreach
programs focus on
food security,
education and
livelihood initiatives.

Q is for question! 

If you have a question about gorillas, our work, Rwanda or Democratic Republic of the Congo, etc. reach out to our team! We love to hear from everyone.

R is for Rwanda!

We work in Rwanda helping people and saving mountain gorillas.

S is for scientific research! 

Scientific research helps us understand the gorillas, plants and other animals that live in the same ecosystem. Up-to-date scientific research allows our team to create the most effective conservation strategies. 

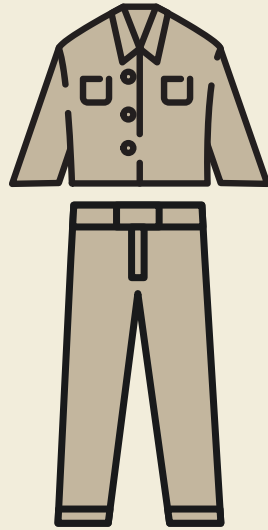

T is for trackers!

Our trackers are in the field every day to provide daily protection to the gorillas.

U is for uniform!

Our trackers were specially designed uniforms when they are in the field.

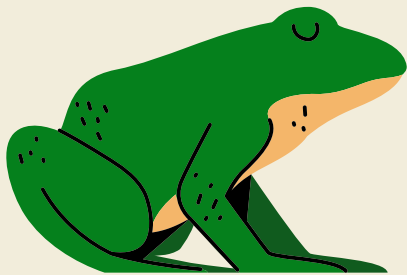

V is for the Volcanoes National Park!

Volcanoes National Park is where mountain gorillas are located in Rwanda.

W is for wetlands!

The Fossey Fund studies the health of wetlands!

X is for extinction!

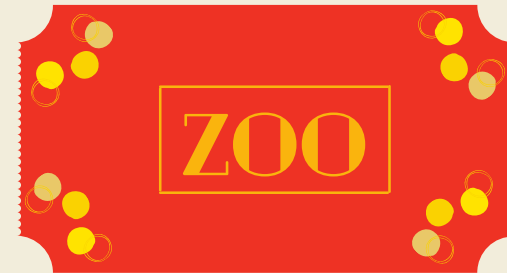

The Fossey Fund team works hard everyday to make sure gorilla populations never reach extinction.

Y is for you!

We need YOU to help save the gorillas.

Z is for zoos!

Visit your local AZA accredited zoo to support conservation efforts all over the world.
